 - Non-ADA Members - \$200

Minimally Invasive Dentistry: Setting a New Standard with Artificial Intelligence

Leon Klempner, DDS

Discover how the latest machine learning technologies can help you diagnose and treat dental disease earlier as well as help you differentiate your practice among competitors.

Learning Objectives:

- Understand the latest technological advancements in AI for dentists.
- Learn how these technologies can impact your practice.
- Identify the ways you can leverage this technology to differentiate your practice to attract new patients.

Speaker Bio: Dr. Leon Klempner is the Director of Orthodontics at the Mount Sinai School of Medicine and a part-time faculty member of both the Harvard School of Dental Medicine and Montefiore-Einstein. He was a member of the Cleft and Craniofacial team at Stony Brook University for over 30 years before retiring from clinical orthodontic practice and relocating to NYC. He is the CEO of People + Practice, a digital marketing agency for dentists, and the co-host of "The Golden Age of Orthodontics" podcast. Dr. Klempner is currently the president of the New York State Society of Orthodontists and is a founding member of the Suffolk County Dental Society.

General Membership Meeting Registration is REQUIRED ONLINE

- For the best experience, it is strongly advised that you attend this course using a computer as opposed to a phone.
