#### **Fact or Fiction? Clinical Pearls on Implants and Dentoalveolar Surgery**

This presentation will review 'common facts' regarding implants and dentoalveolar surgery, and whether they are in fact true or false. The literature will be reviewed regarding these 'common facts', with a focus on how the literature correlates to what is seen clinically. The clinical correlation will then be highlighted. This lecture does not focus on one topic in particular, but reviews approximately 30 'common facts' and whether they are true or false. This will hopefully serve to better all attendees' understanding of common misconceptions in the dental office.

Dr. Robert Bacigalupo was raised in West Hempstead, Long Island, where he graduated from Kellenberg Memorial High School in 2005. After graduating from Villanova University in 2009, he then attended Stony Brook University School of Dental Medicine, where he graduated Summa Cum Laude and was honored with the distinction of being ranked first in his class. Following dental school, Dr. Bacigalupo completed his residency in Oral and Maxillofacial Surgery at Long Island Jewish Medical Center/Northwell Health, where he served as Chief Resident at LIJ Medical Center, Stony Brook University Hospital and the Northport VA Medical Center.

Dr. Bacigalupo joined PML Oral and Implant Surgery after completing his residency in 2017. He has trained extensively in the specialty of Oral and Maxillofacial Surgery, including dentoalveolar surgery, pathology, maxillofacial trauma, orthognathic surgery, dental implants and facial reconstruction. He employs the most recent advances in digital technology for virtual treatment planning and computer guided surgery. Dr. Bacigalupo remains an avid fan of Villanova Basketball and enjoys spending time with his family. He lives in Northport with his wife and two daughters.
