I Have It... You Need It – "Sticking it to your patients"

Nearly every treatment in general restorative dentistry involves "sticking" something to our patients. From adhesive resin restorations to inlay, onlays, crowns and bridges, that is what we do. Dr. Glazer will present a potpourri of materials and techniques that will you're your day more productive, easier and fun. Your entire dental team will benefit from learning together about products that are tried and true as well as the latest ones that will save you time and money but more importantly, benefit your patients. Dr. Glazer's bi-monthly column, "I Have It... Your Need It", appears in DENTAL ECONOMICS magazine where he reviews new products and materials. Additionally, he serves on the editorial board for Oral Health Media and does a product series called "Beyond the Box" which reviews the latest products. Topics may include...

- Moving from Reporative Dentistry to Restorative Dentistry
- Curing lights...to light up your life (dental)
- Desensitization & Adhesives...a sticky subject made simple
- Composites for esthetic fillings not just white ones
- Impression materials and trays...it's true-first impressions are important
- Provisional materials...provisionals should look great
- Lasers...simple, easy and quick w/ great results
- Cements...that which holds the relationship together
- Reducing Sensitivity with topical paste application & Fluoride varnishes
- Patient communication...high-tech and really cool!
- Cameras intra and extraoral
- Loupes, instruments, equipment potpourri
- Saving money for you and your patients with new management applications

Learning Objectives

1. To learn the different types of materials in various product categories
2. To learn what is faster, easier and better
3. To understand the value of continual doctor/patient communication and management apps
